“ Using Adobe Animate is fun and easy...
It’s just like making a flip book! ”

Camp Overview

In this camp you will write and animate a film using industry standard Adobe Animate (formerly Flash) software and drawing tablets. At the end of the camp you carry copies of your work home. Your film is screened at a final showing at the end of the camp.

During the camp you get deeply involved with the animation process. You use principles such shape, form, weight, squash and stretch,

depth and volume, overlap and follow through, timing, action, anticipation and simplification in making your film. You apply character and background design techniques to your film. You create story boards and apply animation techniques such as tweening, morphing, onion skinning and roto-scoping with the use of cutting edge animation and photo-editing software. You create sound effects and apply lip-synch techniques and embed dialogue into

your film.

A USB will be provided to take home with the completed animated film. Computers and tablets will be provided.

The Instructors

Head Instructor:
Brent Phillips-Watts

Brent is a long time teacher or film and animation at Port Moody Secondary , and has been running the Film and Animation camps with Media Fine Arts for years.

Camp Mentors:
The camp mentors are pationate and knowledgable young adults who have a pation for Animation. They work closely with the Campers to see their creative vision come to life?

- We use Adobe Animate (Formerly known as Flash).
- Straightforward program that can appeal to all levels of learners.
- No drawing skills required. The focus will be on computer 2D animation so you don't need to be an artist... This Camp is for everyone!
- All campers will create a short animation for the parent presentation show at the end of the week.
